

## **Tiny Greens Organic Farm & Eco-Community seeks live-in volunteers for organic farming!**

Located in an idyllic, 30-acre, partially off-grid, sustainable-living community in Urbana, IL. Work includes all manner of manual labor and planning involved from seed to harvest and maintaining grounds. Our produce is sold in farmers markets in Urbana and Chicago. Work opportunities may also be available in assisting alternative technology projects including bio-fuels, wind, and solar energy. Compensation includes room and board in small vegetarian, eco-designed community. Located on bus line. Spanish-speaking helpful but not necessary. Minimum 3-month stay, however 6-months to one year preferred. Work is available year-round. Check us out at <http://www.tinygreens.org>! Contact Bill at [info@tinygreens.org](mailto:info@tinygreens.org) with self-intro and inquiries. Positive attitudes and hard workers must apply!

We would also love to meet anyone interested in just hourly volunteering. Should we get this farm off its feet again this year we hope to be able to compensate volunteers in some way once the season takes off.
